

Seminar: New aspects on skin compatibility of fragrances

Ensuring the safe use of fragrances: The global IFRA safety programme

*Dr. Matthias Vey,
International Fragrance Association (IFRA),
Brüssel*

The presentation will describe the roles of IFRA – the International Fragrance Association and RIFM – the Research Institute for Fragrance Materials in ensuring, on a global basis, the safe use and enjoyment of all types of fragranced consumer products. It will further elaborate the process of how IFRA Standards are developed and communicated to members and stakeholders. It will highlight improvements that had been introduced over the last years with regard to the risk assessment process as well as to the way the Standards are presented. It will conclude by describing the global reputation and recognition of the IFRA Standards and the methods to ensure compliance.
